

CLiP[®] Winged Automatic safety IV catheter

Safe and consistent

CLiP® Winged - for safe and successful insertion

CLiP® Winged is an automatic safety IV catheter available in a comprehensive range to meet demanding physical conditions and different clinical needs. The products have been developed with the user and patient in mind - configured to provide excellent insertion properties. When patients and their conditions vary, CLiP® Winged remains consistent and its use contributes to safe and successful insertion.

Advantages at a glance:

- Automatic safety mechanism to prevent needlestick injuries
- Suitable for high pressure injection up to 305 psi
- Wing holder for multiple gripping alternatives
- Stabilization wings for secure fixation
- Small environmental footprint thanks to its compact product and packaging design
